

Please amend the claims as follows:

Add new Claims 26 - 37 as follows:

26. A system for displaying information to a driver in a vehicle comprising:

a location system which determines the location of the vehicle;

a storage device which provides a picture of the roadway near the location of the vehicle
in response to the location of the vehicle;

a device which generates a display of the picture of the roadway on the windshield of the
vehicle allowing the driver of the vehicle to see the display without removing his eyes from the
roadway.

27. A system of the type described in Claim 26 wherein the picture displayed is a live
picture.

28. A system of the type described in Claim 27 wherein the live picture is from a camera
mounted over the roadway.

29. A system of the type described in Claim 26 wherein the display includes driving
directions.

30. A system of the type described in Claim 29 wherein the display includes driving
instructions in the form of a turn indicated on the picture of the roadway.

31
32. A system of the type described in Claim 26 wherein the picture is a picture taken previously and stored in memory.

32
33. A method for displaying information to a vehicle driver comprising the steps of: determining the position of the vehicle; finding a picture of an intersection based on the position of the vehicle; displaying the picture of the intersection on the windshield of the vehicle so that the driver can see the picture while looking out the windshield.

33
34. A method of displaying information including the steps of Claim 33 wherein the step of finding a picture includes the step of retrieving a stored picture of the intersection from memory.

34
35. A method of displaying information including the steps of Claim 33 wherein the step of finding a picture includes the step of receiving a live picture of the intersection.

35
36. A method of displaying information including the steps of Claim 35 wherein the step of finding a picture includes the step of receiving a live picture from a camera mounted above the intersection.

36
37. A method of displaying information including the steps of Claim 33 wherein the display of displaying a picture of the intersection further includes the step of adding driving instruction to the display.
